Notes:

1.) An "Armierungs" Battalion is an unarmed labor battaion raised on mobilization and later from personnel who were either not fit enough for field service or trustworthy enough.

2.) M.Fr. This abbreviation escapes precise translation. It is thought that thewe were "Mast-Fernrohr" (mast telescope) detachments. They had an optical telescope like a periscope mounted on a wagon. In 1915 there were 17 such tropes and in 1916 another 188 were raised.
